

COLUMBIA UNIVERSITY  
IN THE CITY OF NEW YORK  
DEPARTMENT OF CHEMICAL ENGINEERING

Reference: Master's Research (CHEN E9400)

Research is not required in your MS Program and it is not something done by everyone. Asking a professor to sign this form means that you understand that access to his or her research is a privilege that carries certain obligation to the professor and to the laboratory colleagues. Your efforts should be serious and sustained; do not start something that you do not intend to complete. You must follow laboratory and institutional rules and keep yourself and colleagues safe. You should maintain records of your work and must not use the laboratory for any announced purpose.

Faculty Approval

I agree for student \_\_\_\_\_ to join my research group for  
the \_\_\_\_\_ (Fall/Spring/Summer) semester of \_\_\_\_\_ (year)

I take on the responsibility of assigning this student a grade.
