

Faculty Position in the Department of Chemical Engineering

Columbia Engineering is pleased to invite applications for a faculty position in the Department of Chemical Engineering at Columbia University in the City of New York. Applications at the Associate Professor, and in exceptional cases, at the Assistant Professor and Full Professor levels, will be considered. Applicants concerned with chemical engineering approaches to biological problems is of particular interest. Applicants must have a Ph.D. or its professional equivalent by the starting date of the appointment. Applicants for the positions at the Assistant Professor and Associate Professors without tenure must demonstrate the potential to do pioneering research and to teach effectively. Applicants for the positions at the tenured level (Associate or Full Professor) must have demonstrated outstanding research ability, excellent teaching credentials and established leadership ability. Depending on the research focus of the candidate, a joint appointment with a Department in the Columbia University Medical Center may be possible

Successful candidates are expected to contribute to the advancement of both their field and the department through an original and leading externally funded research program that contributes to the undergraduate and graduate educational missions of the Department. Columbia fosters multidisciplinary research and encourages collaborations with academic departments and units across the university. The Department places high value on qualified candidates who can contribute, through their research, teaching and/or service, to the diversity and excellence of the academic community.

For additional information to apply, please see: <http://engineering.columbia.edu/faculty-job-opportunities>. Applications should be submitted electronically and include the following: curriculum-vitae including a publication list, a description of research accomplishments, a statement of research and teaching interests and plans, contact information for three experts who can provide letters of recommendation, and up to three pre/reprints of scholarly work. All applications received by November 30, 2016 will receive full consideration.

Applicants can consult www.cheme.columbia.edu for more information about the department.

Columbia is an affirmative action/equal opportunity employer with a strong commitment to the quality of faculty life.
