

Do you have a bachelor's degree in Chemistry or a related science? Did you know that adding a master's degree in Chemical Engineering can greatly enhance your career opportunities?

Scientist to Engineer (S2E)

Master of Science in

Chemical Engineering

The Scientist to Engineer (S2E) part of our Masters in Chemical Engineering Program is specially designed for new M.S. students without a B.S. in Chemical Engineering. Covering the essentials of the entire undergraduate curriculum, the S2E part of the program brings a students up to speed in a concentrated and accelerated way during the first semester. Degree completion is typically accomplished in three semesters.

M.S. students can pursue a broad-based chemical engineering curriculum, or one of the following concentration areas:

- Biotechnology and Biopharmaceuticals
- Climate Solutions
- Data and Computational Science
